

A GOOD REASON.

The People of Barre Can Tell You Why It Is So.

Doan's Kidney Pills cure the cause of disease, and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache, headache and distressing kidney and urinary complaints. Barre people testify to permanent cures.

L. H. Hooker, retired, of 101 Prospect street, Barre, Vt., says: "Doan's Kidney Pills, which I got at E. A. Drown's, did me more good than all the prescriptions and other remedies I ever used. Over eight years ago I gave a statement for publication telling what they had done for me, and today I have even more confidence in them than I had at that time. I had suffered for a long time from kidney complaint, and it finally became so bad that my condition was considered serious. My back ached nearly all the time, an annoying urinary difficulty existed and the action of my kidneys was disordered. I used every remedy I heard of, but without beneficial results until I at last resorted to Doan's Kidney Pills. I used in all five boxes and received wonderful relief. I use this remedy occasionally now, and have recommended it to dozens of people, many of whom have been so greatly benefited that they have come back and thanked me for telling them of this valuable medicine."

WE RECENTLY SETTLED A CLAIM

\$7,000 insurance paid promptly to a family where it was due. One of the policies had been in existence in the company over forty years, and even then the amount we paid was more than the amount he paid. In the same bunch of papers the family held in possession policies representing \$16,000 insurance in companies where the insured had paid in large amounts of premiums, but these companies and their policies died first. That is one of the many reasons why we say our insurance is the best insurance in the world. 57th year, doing business in 42 states.

PREPARING TO SEND

American Army to China To Watch

EVENTS IN THE ORIENT

Secretary Taft Is Taking Measures to Protect the Lives and Property of American Citizens There.

Washington, Feb. 17.—The recent military measures for the protection of American lives and property in China were inaugurated by Secretary Taft with the full concurrence of the President. Secretary Root was the originator of the suggestion that the Chinese situation justified the increase of American forces in the Orient.

The War Department now has officers in China maintaining constant observations of conditions there. Some of these officers have been on their present assignment for two months. Their reports have not yet been received in Washington although it is understood that they are in close touch with Major-General Leonard Wood, commanding the division of the Philippines, from whose headquarters at Manila and field operations in China would be directed in their incursions.

From an army source here it is learned that plans have been formulated by the officers now in China and the military information bureau for the first movements of troops in case of an outbreak in South China warranting a relief column landing.

The government now has four sources of information in China: First, the diplomatic and consular agencies; second, the naval forces, including beside the big ships of the Asiatic station, all of which are in Chinese waters, the small gunboats El Cano and Villalobos, which are even now doing what may be called scout duty in the great Yantse River district; third, the army observers mentioned, and fourth, the missionary and commercial people, whose communications to their home offices in this country are at the disposal of the State Department.

There was a rumor at the War Department that Major-General Weston, familiarly known as "Fighting Jack" Weston, the hero of many a memorable cavalry encounter during the Civil War and the winner of further laurels as chief of commissary in the Santiago campaign, is to command the Chinese expedition if one is made.

This rumor was due to the fact that General Weston has sailed from San Francisco for Manila, carrying sealed orders, which, according to the rumor, contain his instructions to get a brigade of infantry, with supporting artillery and cavalry, into shape for immediate foreign service.

U. S. TAKE CASTRO'S PAPERS.

American Consuls in France Now in Charge of Venezuelan Consulates.

Paris, Feb. 17.—The United States consul general in Paris and the consuls at Harre, Bordeaux, Nice, Marseilles, and Nantes, yesterday received orders from Washington through the American embassy to take possession of the archives of the Venezuelan consulates in those cities. The orders expressly limit the action of the consuls to taking possession of the archives.

The effect of this is to suspend further consular business, as the archives cover the old papers, whereas the limitation prevents the transaction of new consular business. The limitation follows the ruling by Premier Rouvier that Venezuela, having taken the initiative, it was incumbent upon France to follow the same course.

Why Poultry is Profitable.

A hen is profitable or unprofitable just in proportion to the number of eggs she lays, but hens are like human beings—they do good work when they are not well. Green Cut Bone and Meat is pronounced by some poultrymen the best known article for keeping the hen in a strong, healthy condition during the days of severe cold weather which we have in January, February and March. C. S. Page of Hyde Park, Vt., furnishes this commodity and on receipt of \$3.50 will send a barrel, freight prepaid, to any railroad station in New England or New York.

RAILROADS AND THE OIL TRUST.

Report That Their Relations Are to Be Investigated by the Government.

Pittsburg, Pa., Feb. 17.—The Post says indictments of Standard Oil and railroad officers by the Federal authorities after the manner in which the beef trust leaders have been dealt with, and action to this end immediately following the termination of the packers' cases now in progress in Chicago, are the possible rates by the government. With the completion of the probing by a department of commerce operative, authoritative confirmation was obtained Thursday night of the intimations that the purpose of this investigation has been to find out the relations of the railroads and the oil trust in the matter of rebates. It is said that Commissioner Garfield proposes to give the oil rebater his attention immediately after the beef trust prosecutions in Chicago are brought to a close.
